

Preventative Maintenance

Engineering Analytics Laboratories (EA Labs) is pleased to provide expert Preventative Maintenance services to our clients. Prospective clients may choose which standardized PM Service Agreements most accurately meets their needs from the chart below. EA Labs also offers an exclusive customized agreement in which our clients tell us what they need, and we build a customized agreement. EA Labs aspires to serve our clients by taking on their needs as our goals in order to assist our clients to develop their brand and capabilities.

What sets EA Labs apart from the rest?

- **Engineers... not technicians.**
- Customized contracts to meet your needs and budget.
- Calibration and Validation across all makes, models, and years! We service what the OEMs no longer service.
- PM Services, Materials Testing, Consumables, Training, and Consultation in one company.
- Exclusive discounts for partners and long term clients across all services.
- New installation service – any make, model, year.
- Free service: Quotes for equipment and replacement part from each OEM and supplier.

Discover the EA Labs difference!
